Implementation checklist

- ☐ Add `crayola-theme.css` tokens to the `cx-commons` `@theme` block
- ☐ Swap all 22 raw palette classes on action buttons for `bg-action-*` / `hover:bg-action-*-hover`
- ☐ Use `text-action-ink` on every tier except critical (`text-action-critical-ink`)
- ☐ Replace brand-500 link text with brand-600 on light backgrounds
- ☐ Point the nav bar at `bg-nav` with the `nav-active` underline
- ☐ Update status badges to the new status tokens (lapsed no longer shares disputed's color)
- ☐ Spot-check both modes after the swap
